

# ELIT 1068, nettverkstester

## Network Tester, Cable Tracer

For testing of data and telecom cables that indicate the connection order of the cable, cable tracer

### Technical description

ELIT 1068 is intended for testing of data and telecommunication cables where the transmitter and receiver are used, which indicates the connection order of the cable. In addition to this, it can also be used as a tone finder to track and find unmarked cables that are voltage free

### Advantages:

Product name/ Art.nr/ GTIN	ELIT 1068, nettverkstester/ 10110000/ 7070811207199
According to:	2014/30/EU Electromagnetic Compatibility EN55032:2015+A11:2020 EN55035:2017+A11:2020 EN IEC 61000-3-2:2019 EN 61000-3-3:2013+A1
Suitable for	Twisted Pair
Model	Connection tester
Type of indication	Analogue
With PC/printer interface	No
Measured value memory	No
Suitable for network protocol measurement	No
Additional device connectable	No
With measuring head	Yes
