

ELIT LST 320

Technical description

Advantages:

Product name/ Art.nr/ GTIN	ELIT LST 320/ 10210011/ 7070810025220
According to:	---
Type of adapter	Electrical
Can be used with a multimeter	No
Can be used with a clamp meter	No
Can be used with an appliance tester	No
Can be used with an installation tester	Yes
Can be used with an earth ground tester	No
Can be used with a machine tester	No
Can be used with a power analyser	No
Can be used with a process calibrator	No
Can be used with an environmental instrument	No
Can be used with an oscilloscope	No
Can be used with a thermal camera	No
Suitable for E-mobility test	Yes
Suitable for photovoltaic test	No
Measuring circuit category	CAT II
Max. voltage measuring circuit category	300 Volt
Connector type input	Other
Connector type output	4 mm safety plug
Max. input voltage	30 Volt
Max. output voltage	0 Volt
Max. input current	32 Ampere

Max. output current	0 Ampere
Degree of protection (IP)	IP20
With case/bag	Yes
Operating temperature	-20 - 50 Degrees celsius
Length	230 Millimetre
Width	170 Millimetre
Height	50 Millimetre
