

ELIT 160TF

Clamp with temperature sensor for measurement on pipes up to Ø35mm, from -40°C to 100°C

Technical description

Type K sensor with flat pin. 102cm long cable between clamp and flat pin for connection to standard temperature meters. For use against multimeters, ELIT TIK4 transition to 4mm can be used.

Advantages:

Product name/ Art.nr/ El.number/ GTIN	ELIT 160TF/ 8011351/ 1150029/ 7070810008193
According to:	---
Model	Clamp
Measuring range	-40 - 100 Degrees celsius
Material	Plastic
Length probe	35 Millimetre
Length of connection cable	1,02 Metre
