

ELIT ISOTP25M5

Insulating spacer for use on voltages <1000VAC / DC

Technical description

Low voltage insulator in 25mm height and with M5 thread. The insulator is mainly used to insulate live copper rails from the substrate or to support earth rails. Operating temperature from -40°C and up to +130°C. The polyamide materials are reinforced with fiberglass and are halogen-free. Electro-galvanized steel insert and threaded according to ISO standard. Great stability on electrical and mechanical parameters. Self-extinguishing according to UL94 VO. Rated voltage is 1000VAC/DC. Dielectric power is 1500VAC/DC.

Advantages:

Product name/ Art.nr/ GTIN	ELIT ISOTP25M5/ 20350042/ 7070811200848
According to:	---
Material	Plastic
Bolt dimension (metric)	5
Length	25 Millimetre
Outer diameter	20 Millimetre
