

ELIT RCBS1-6TN

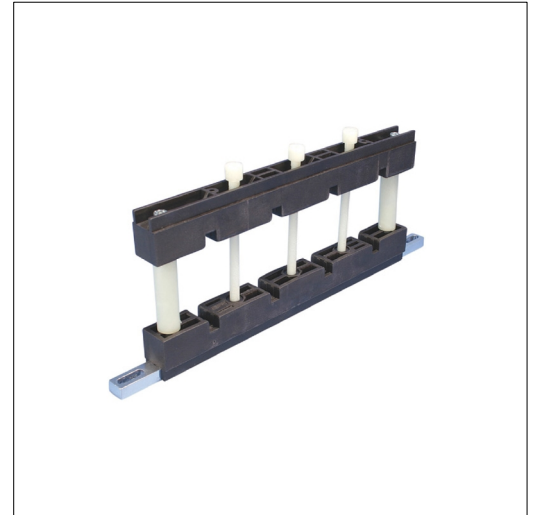

Rail holder 4 pcs. 10x50-80mm

Technical description

Rail holder for 4 pcs. rails with a thickness of 6.35mm and a height of 50 - 80mm. The distance between the copper rails is 65mm and the holders are designed for a current-carrying capacity of 500 - 1200A.

Advantages:

- Compact design fits in 400 mm (15 3/4") deep panels
- Mechanically reinforced
- Includes mounting holes for direct attachment of protective screen
- Installs quickly and easily
- Halogen-free
- RoHS compliant

Product name/ Art.nr/ GTIN	ELIT RCBS1-6TN/ 20350068/ 7070811207991
According to:	---
Number of poles	4
Max. rated current	1200 Ampere
Busbar distance	65 Millimetre
