

# ELIT UD-400J

Jumper for a single-pole distribution block 400 A

## Technical description

Connector / Jumper<sup>™</sup> with insulating sleeve for a single-pole distribution block. See images and data sheet for application examples.

### Advantages:

Connects up to three UD-400A-212 copper or aluminum single-pole distribution blocks in parallel  
 Increases the number of inputs and outputs up to three times  
 Ideal for collecting power from solar panels  
 Complies with EN 45545 and achieves HL3 classification for chapter R23 and HL2 classification for chapter R22

Product name/ Art.nr/ GTIN	ELIT UD-400J/ 20400076/ 7070811208011
According to:	---
Width installation duct	10 Millimetre
Construction type	Other
Material	Other
Material quality	Other
Suitable for circuit integrity	Yes
