

ELIT LOF-AI 4,0m

Air-termination rod Al 4.0m \varnothing 16/10mm

Air-termination rod Alu 4.0m \varnothing 16/10mm without thread

Technical description

Tubular air-termination rod made of aluminium, unthreaded, designed for roof structure protection. Tapered cylinder (3 mm thickness) from \varnothing 16 mm base to \varnothing 10 mm tip. The \varnothing 10 mm air-termination tip is 1 metre long. Total length: 4.0 metres. Suitable for both wall mounting and with concrete bases.

Advantages:

Tubular aluminium air-termination rod, unthreaded, 4.0 metres
Tapered design with a diameter transition \varnothing 16/10mm
Compatible with wall mounts and concrete bases
Manufactured according to DIN EN62561-2
