

ELIT

Upper termination kit for HVSC down conductor

Upper termination kit for HVSC cable for connection to air-termination device

Technical description

The upper termination kit is designed for use with the HVSC Plus down conductor. The upper termination kit provides all accessories for high voltage termination of the HVSC Plus down conductor to the CAT terminal.

NB!

The cable lugs included in the package are of the type YCA50M10TN DIN46235, and must be pressed with a hexagonal press.

The pressing die can be purchased separately, e.g. ELIT Pressing die 50 mm² DIN46235 C12K14-13 with part number 80100056, or equivalent.

Advantages:

Complete HVSC Plus Top Termination Kit

Provides end termination for CAT air-termination
