

ELIT LOFG-ALU-Ø16-10-4M

Air-termination rod threaded Alu 4m Ø16/10mm

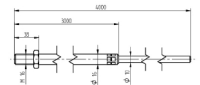

Air-termination rod 4.0m Ø16/10mm with M16 thread and lock nut

Technical description

Optimal air-termination rod made of aluminum AlMgSi 0.5 for the protection of roof structures.
Dimensions: Ø16 with M16 thread and arrester tip Ø10 mm, 1 m long.
Suitable for concrete foundations with threaded insert.
With lock nut DIN 439 M16 FZN.
Manufactured according to DIN EN 62561-2.

Advantages:

Air-termination pole with M16 thread and lock nut DIN 439 M16 FZN
Suitable for concrete foundations with threaded insert
Manufactured according to DIN EN 62561-2

Product name/ Art.nr/ GTIN	ELIT LOFG-ALU-Ø16-10-4M/ 40150230/ 7070810038947
According to:	DIN EN62561-2
Length	4000 Millimetre
Diameter	16 - 10 Millimetre
Model	Interception rod with thread
Material	Aluminium
Surface protection	Hot-dip galvanized
Connection	Round conductor
