

ELIT

Pole base frame 650x650mm

Air-termination pole base frame to be used for the fixing of air-termination poles Ø42mm

Technical description

Air-termination base for concrete. Suitable for air-termination poles with Ø42 mm, and maximum height 4.0 meters.

Material: stainless A2-steel

For roof slopes up to 5°

Footprint: approx. 650 x 650 mm

for concrete base 300 x 300 mm (must be ordered separately)

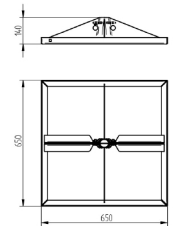

Weight: 7.15 kg.

Advantages:

Base for concrete for air-termination poles Ø42mm and max. height 4.0 meters

Material: stainless A2 steel

Footprint: approx. 650 x 650 mm

Product name/ Art.nr/ GTIN	ELIT BASE-BETONG-650X650MM/ 40150243/ 7070810040674
According to:	N/A
Model	Base
Lightning conductor insertion	Screwed
Material	Stainless steel 304 (V2A)
Surface protection	Hot-dip galvanized
Diameter	42 Millimetre
Weight	7,15 Kilogram
