

ELIT FGB30X35

Flat galvanized strip 30x3.5mm

Galvanized steel strip for use in lightning protection systems or earthing systems 30 x 3,5 mm

Technical description

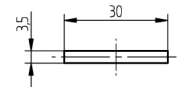

Steel, hot-dip galvanized (Z 500) - 30 x 3.5 mm - 50 kg
Galvanization: Minimum weight ~ 500 g/m²; Coating thickness = 70 µm (average value)
Cross section: 105 mm²
Short-circuit current (50 Hz), 1 s, = 300 °C: 7.4 kA
1 coil approx. 60 m

Advantages:

Steel tape, galvanized, according to DIN EN 62561-2
For use in lightning protection systems or earthing systems
1 coil/spool is approx. 60 m

Profile:

Product name/ Art.nr/ GTIN	ELIT FGB30X35/ 40160020/ 7070810029235
According to:	EN 62561-2
Width	30 Millimetre
Thickness	3,5 Millimetre
Material	Steel
Surface protection	Hot-dip galvanized
Weight	83,33 Kilogram per 100 metres
