

ELIT UNIKL50X50

Universal clamp bare steel Ø4-16mm -

Universal clamp / earth connection clamp in bare steel for Ø 4 - 16mm / 30x3.5mm or Ø10mm

Technical description

Universal clamp / ground connection clamp / reinforcement clamp 50 x 50 mm in untreated steel, according to EN 62561-1, for connecting round or flat conductors to the reinforcement in the concrete foundation.

Suitable for: Ø 10 or fl. 30 x 3.5 mm / Ø 4-16 mm

Threaded bolt - Steel, bare

Threaded bolt: M10x60, St/gal Zn with hexagon nut M10, St/tZn

Type of clamp: 3-part, round-flat/round

Assembly, possible in two steps:

Assembly step 1: Connecting the foundation ground electrode to the reinforcement

Assembly step 2: Connecting and fixing the fixed grounding terminal to the reinforcement

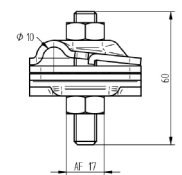

Manufactured according to DIN EN 62561-1.

Advantages:

Universal clamp made of untreated steel for connecting round or flat conductors to the reinforcement

Suitable for round conductor Ø 10 or flat 30 x 3.5 mm / Ø 4-16 mm

Manufactured according to DIN EN 62561-1

Product name/ Art.nr/ GTIN	ELIT UNIKL50X50/ 40180034/ 7070810035434
According to:	DIN EN 62561-1
Suitable for	Round/flat conductor
Clamping range round conductor	4 - 16 Millimetre
Clamp width flat conductor	Up to 40 mm
Material	Steel
Surface protection	Untreated
