

ELIT ZVR100/200

Cement-coated wall sleeve Ø100mm 200mm

Cement-coated wall sleeve Ø100mm with special coating - length 200mm

Technical description

PVC wall sleeve coated with cement for embedding in floors and walls. Provides a perfect fit for press seals that can be used inside the pipe after casting to create a water and gas tight entries for cables or pipes. The pipe has an inner diameter of Ø100 mm, an outer diameter of Ø150 mm and is 200 mm long. Special coating creates a water tight connection with the concrete. 2 x closing caps included.

Advantages:

- Suitable for the use of press seals
- Can be used for double element walls
- Other lengths on request
- Can be cut to length on site
- Light weight and simple installation

Product name/ Art.nr/ GTIN	ELIT ZVR100/200/ 60400000/ 7070811200411
According to:	Waterproof concrete stress class 1 and 2.
Model	Closed
Cable entry	Round
Bore diameter	115 Millimetre
For wall thickness	0 - 200 Millimetre
Total length	200 Millimetre
Material	Other
Material quality	Polyvinyl chloride (PVC)
Surface protection	Other
Colour	Grey
Gastight	Yes
Watertight	Yes
