

ELIT WireXpert 500

Cable certifier of CAT 5e, CAT 6 and CAT 6A network cables according to EN 50173

Technical description

ELIT WireXpert 500 certifies cables for speeds up to 10Gbit/s in a matter of seconds. Automatic test sequence and evaluation against current standards, full test takes only 9 seconds. It is becoming more and more common today in the market that electrical installers are also commissioned to install computer networks, then this is the instrument you need for certification. Installers can easily perform the certification thanks to a simple user interface and professional reports can be generated and delivered to the customer.

Super fast testing, only 9 seconds.

High accuracy according to EN, TIA and ISO standards.

Intuitive interface on large color screens with touch on both devices.

Can perform patch cord certification.

Advanced cable certification up to 500MHz (CAT 6A).

Testing of industrial Ethernet with M12 connections.

Advanced report generation.

Cable length measurement and wiring diagram.

2000 complete tests can be stored for internal memory.

Supplied equipment:

2x WX500 certification units,

2x protective covers,

2x CAT 6A Permanent Link Adapters,

2 CAT 6A Permanent link test leads,

2 CAT 6A Channel Adapter,

2x Headphones with microphone,

2x Charger, Calibration certificate

USB memory stick with manuals and software,

Carrying case.

Advantages:

Product name/ Art.nr/ GTIN	
Product name/ Art.nr/ GTIN	ELIT WireXpert 500/ 10110007/ 7070811209049
According to:	---
Suitable for	Twisted Pair
Model	Cat-6 certification set
Type of indication	Touch screen
With PC/printer interface	Yes
Measured value memory	Yes
Suitable for network protocol measurement	Yes
Additional device connectable	No
With measuring head	Yes
