

ELIT TTRC16

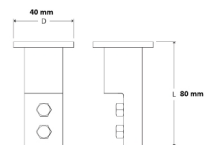

Interception bracket for threaded lightning arresters Ø16 mm in copper (Cu) with M16 threads

Technical description

Copper alloy arrester mount for threaded lightning arresters Ø16 mm in copper (Cu) of type ELIT LPCAR0515, LPCAR1015 and LPCAR2015. There is an M16 threaded connection for the arrester and an M6 bolt termination for connection to the cable lug for the down conductor.

Advantages:

Provides easy connection of threaded air-termination (Ø16 mm) and down conductor
Solid connection with ready M6 connection to down conductor
M16 screw connection for air-termination type LPCAR

Product name/ Art.nr/ GTIN	ELIT TTRC16/ 40150001/ 7070810002153
According to:	---
Type of connector	Connection component
Suitable for diameter round conductor	8 - 10 Millimetre
Clamping range	25 - 30 Millimetre
Mounting hole	16 Millimetre
Material	Copper
Surface protection	Other
Type of fastening screws	Hexagon screw
