

ELIT ULM-Betong-Ø370

Underlay mat for concrete base with diameter up to Ø360mm

Technical description

Underlay mat for concrete plinths with diameters up to Ø360 mm. The mat prevents damage to the substrate and increases friction against the substrate so that the concrete plinth lies firmly.
Dimensions of underlay mat/protection plate: Ø370 mm. Weight: 0.22 kg.

Advantages:

Prevents damage to the substrate when using a concrete base
The system stands better and is more slip-resistant
Suitable for concrete bases up to Ø360 mm

Product name/ Art.nr/ GTIN	ELIT ULM-Betong-Ø370/ 40150045/ 7070811209131
According to:	N/A
Model	Girder
Material	Other
Surface protection	Untreated
Diameter	370 Millimetre
Weight	0,22 Kilogram
