Telescopic lightning arrester up to 14/3" 4.35m

Telescopic lightning arrester Ø42-10mm in aluminum length 4.35m for wall mounting

Technical description

Telescopic air-termination rod in aluminum that can be pulled up to a height of 4.35 meters. Mounted on the wall with two wall brackets of type A. The arrester diameter is Ø 42 mm at the thick end and 10 mm at the tip. Withstands wind speeds up to 149 km/h for wind zone 1, and up to 122 km/h for wind zone 1.5. Transport length: 2.0 m. Weight: 3.0 kg.

Advantages:

Telescopic interceptor with a maximum length of 4.35 m
Mounts on the wall with two wall brackets
Made of aluminum
Withstands wind speeds up to 149 km/h

Product name/ Art.nr/ GTIN	ELIT LOT435M143/ 40150134/ 7070810033317
According to:	EN 62561-2
Length	4350 Millimetre
Diameter	42 - 10 Millimetre
Model	Interception rod tapered
Telescopic	Yes
Material	Aluminium
Surface protection	Other
Connection	Round conductor
