

ELIT FALS-KLEM-CU-Ø8

ELIT Crimp clamp copper (Cu) Ø8mm

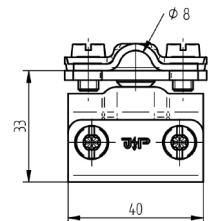

Cross-saddle clamp in Copper (Cu) Ø8mm

Technical description

Cross-saddle clamp in Copper (Cu) according to EN 62561-1 with screws for secure connection to sheet metal and steel structures. Conductor routing longitudinally and transversely. Screw: [4x] Cylinder head screw M6. Clamping range: up to 8 mm. Suitable for conductors Ø8mm. Screw material: stainless steel V2A/copper plated.

Advantages:

Cross-saddle clamp made of copper (Cu) according to EN 62561-1
Copper-plated screws for secure connection to sheet metal and steel structures
Conductor routing longitudinally and transversely
Screw: [4x] Cylinder head screw M6
Clamping range: up to 8 mm
Suitable for conductors Ø8mm

Product name/ Art.nr/ GTIN	ELIT FALS-KLEM-CU-Ø8/ 40170026/ 7070811203924
According to:	EN 62561-1
Mounting type conductor	With screw clamp
Suitable for diameter round conductor	8 - 8 Millimetre
Material of holder	Copper
Mounting type holder	Other
Material of carrier	Copper
Material of saddle clamp	Stainless steel 304 (V2A)
