

ELIT

ELIT Gutter bracket copper-plated (Cu) V2A Ø8

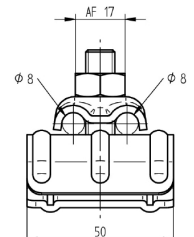

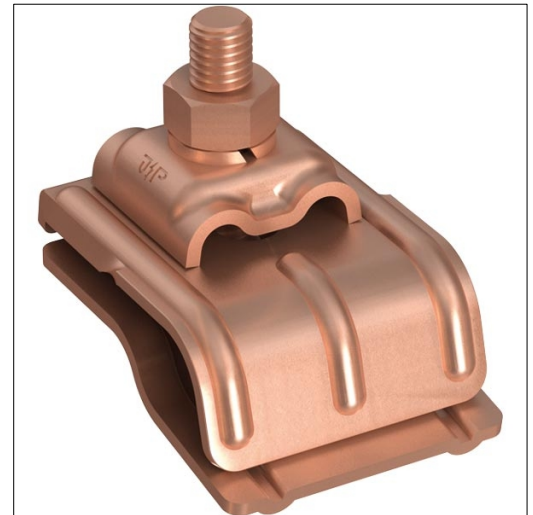

Gutter terminal-clamp DUO in Copper for Ø8mm conductor

Technical description

Gutter bracket made of stainless steel (V2A) with copper coating (Cu) for increased strength and good rust resistance. All components including the screw are copper-coated stainless steel (V2A). Can be attached to gutters with side edges Ø15 - 20 mm. Screw bracket for conductors Ø8 mm.

Advantages:

All components including the screw are copper-plated stainless steel (V2A)
Can be attached to gutters with side edges Ø15 - 20 mm
Screw fastening for conductors Ø8 mm

Product name/ Art.nr/ GTIN	ELIT TAKREN-FEST-CU-Ø8MM/ 40170039/ 7070811203917
According to:	EN 62561-1
Mounting type conductor	With snap clamp
Suitable for diameter round conductor	8 - 8 Millimetre
Material of holder	Copper
Mounting type holder	Other
Material of carrier	Copper
Material of saddle clamp	Copper
Material base part	Copper
Assembly height conductor holder	55,5 Millimetre
