

ELIT SF8SS

Fastening to ceiling plate for Ø8mm conductor

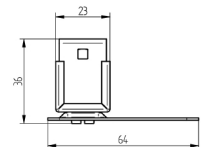

Roof conductor holder type A Ø8mm

Technical description

Roof conductor holder, made of stainless steel, according to EN 62561-4 for mounting round conductors Ø8mm on corrugated roofs. Version with Niro-Clip conductor holder. Holds the conductor 19.5 mm up from the roof plate.

Advantages:

Roof conductor holder, made of stainless steel, according to EN 62561-4
Version with Niro-Clip conductor holder
Holds conductor 19.5 mm up from the ceiling plate

Product name/ Art.nr/ GTIN	ELIT SF8SS/ 40170055/ 7070810017430
According to:	EN 62561-4
Mounting type conductor	With snap clamp
Conductor diameter	8 - 8 Millimetre
Application	Metal roof
Mounting method	To hang in
Material of holder	Stainless steel 304 (V2A)
Material of carrier	Stainless steel 304 (V2A)
Assembly height conductor holder	19,5 Millimetre
